# Drop-Deck Tilt

**IT-I Industrial Trailer  
Pan Tilt**

**DDT-105**

ISO 9001 Certified Quality  
Management System

## IT-I Tilt Deck Equipment Trailer (6,580 lb. to 17,720 lb. capacities)

The IT-I (Industrial Drop Deck Tilt) tilts with the use of a cushioned cylinder, gently lowering the tilt bed to the ground for loading. The IT-I tilt deck trailer is of a single frame design, constructed of a cold-formed I-Beam main frame and Jr. I-beam crossmembers. This design makes the outer trailer frame from tongue to tail, giving it a very solid structure. It is built with a frame within a frame which gives the ability to load medium-duty equipment without stressing other components on the trailer when loading.

Trailer shown with optional

- Removable attachment rack
- Blackwood decking
- Sublime Green paint
- Dual jacks
- Rub rail and stake pockets
- Pallet fork holders

## Pan Tilt (1,800 lb. to 14,800 lb. capacities)

The Pan Tilt is a gravity tilt trailer, using gravity and its center pivot point to tilt the trailer. Pan Tilt utility trailers are perfect for any low clearance machine, this dynamic design works great from the warehouse to the worksite to the home site. A few common applications include mowers, scissor lifts, rollers, forklifts, landscape materials, and more. There are several Tilt trailers on the market today but none compare to the Felling Pan Tilt utility trailer.

# The **FELLING** Style Quality - Craftsmanship - Pride

Felling Trailers is a family owned and operated Full Line Trailer Manufacturer located in Central Minnesota. Started in 1974 by Merle J. and Kathy Felling, Felling's daughters Brenda Jennissen and Bonnie Radjenovich now own and operate the company with their spouses Patrick Jennissen and Paul Radjenovich. Felling Trailers, Inc. has grown from a small shop to a factory and office complex that today covers over 349,000 square feet. Felling Trailers currently manufactures over 5,000 trailers a year ranging from a 3,000 lb. utility trailer to a 120,000 lb. hydraulic gooseneck trailer, and its standard trailer line includes over 240 models. Felling's pride and differentiation is its customized trailer division. Its engineers utilize the latest Industry-leading design techniques, and its experienced metal craftspeople use cutting-edge technology to turn its customers' conceptual trailer needs into a tangible product. Felling Trailers continually researches and implements new technologies to reduce lead-time and increase production in the manufacturing plant. Felling has been providing innovative trailer solutions to the transportation industry for over 40 years. With over 100 years combined industry sales experience, we have the answers to your specialized trailer needs. Felling Trailers' current capabilities allow them to provide a high-quality product that is distributed across North America and internationally. Felling Trailers, Inc. is an ISO 9001 Certified Company, WBENC-Certified WBE, and EOE.
